Nice dlc but I can't figure out how to activate it :(someone help!. Is it worth 99 cents? No. There are about 5 upgrades and once they are all upgraded many times, they start costing thousands which you can barely afford. After about 20 minutes there is no progression so you decide to log off. You join back to realize all of your progress has been reset!

Summary:

Not enough features/items for it to exceed cookie clicker. 2/10. Beated under 4hrs.

A tiny little platformer, suited for anyone who wants some quick fun v challenges without getting into it too much.

Pros:

+Tight controls

+Good room designs, fair challenging

Cons:

-No map system, no indication for items you've already got, which makes back tracking somewhat painful (yes, there IS back tracking in this game, not much though)

-Wall running may not work sometimes. It is one of the best games i played when i was like 4 and i'm 10 and its still great.. Nice little game with a good Soundtrack.

Took me around 3h to complete it (including all the achievements).. Cute girls in mecha suits, what more could you want.

Joking aside, the game is pretty repetitive, but at the same time fun and challenging especially upgrading and fulfilling mission criteria for unlocking... unlockables.. Okay. First, this is an old-school RPG. By that I mean, anyone expecting modern bells and whistles will be VERY disappointed. Hardcore and old-school gamers will likely find it to be an engaging story with mechanics they may not be used to.

I do suggest getting the entire trilogy at the same time, if you are interested.

Chosen 2 is the sequel to The Chosen RPG. After the events of that game, Edge must find his father's spirit to have a chance to escape the Underworld. At the same time, the rest of his crew must deal with dark rumblings as other dark forces make their presence known.

This game was worth every penny I paid for it. Though, considering I bought it with a coupon.. The game is great the only problem is the handling, other than that it's great. But why play it, if the handling is going to make you not have a chance. When this gets fixed I will change my rating, the time I put in is enough to know the handling is not good.. Great roguelike game!. never felt so sexually violated by a game before.

10/10. This game is a mess.. it's not the worst game I've ever played but it's so fucking annoying, I can't recommend this. Only get it if you have a 90% coupon, even then it's just barely worth it.
