iBOX ip Properties

iBox ip address (e.g. 10.0.0.174):

192.168.0.124

(192.168.1.200) if card not present default is:

iBox subnet mask (e.g. 255.255.255.0):

255.255.255.0

(255.255.255.0)

iBox gateway ip address (e.g. 10.0.0.138):

192.168.0.1

(192.168.1.1)

iBox Username:

ekopower

(Max. 8 characters, default ekopower)

iBox password:

xxxxxxx

(Max. 8 characters, default ekopower)

Server Properties

Server ip address (e.g. 134.0.0.3):

83.163.175.98

Send testfile to specified server:

Server username (e.g. serv001):

demo724

Connecting to 83.163.175.98

Server Password (e.g. servpass):

xxxxxxx

Sending file to server.

Server data directory (e.g. logger/data):

pools/A/A0/demo724

Checking file on server.

Server Current file directory (e.g. logger/current):

pools/A/A0/demo724

Test successful!

Name of Current file (e.g. xxx\_current.log):

742\_current.log

Send Test File

E-mail Alarm Properties

Mail server ip address (123.4.5.6):

xxxxxxxxxxxx

E-mail address (e.g. name@mail.com):

your email address

Mail server username (e.g. user001):

xxxxxxx

E-mail Address (CC):

Mail server password (e.g. pass001):

xxxxxxx

E-mail Address (sender):

724@ibox.com

LAN Connection Always On

Low power iBox with optional switch for e.g. wireless 3G router

Refer to manual

Wait Time for Connection:

0

seconds (maximum 300 seconds, typically 90 sec)

Keep alive time:

0

minutes (maximum 10 minutes)

Cancel

Save
